

MARKET PROFILE:

MARINE INDUSTRY

SPOTLIGHTING PRODUCTS FOR YOUR INDUSTRY NEEDS

ACCESS COMPONENT EXPERTISE FOR ALL YOUR BOATING NEEDS

Allegis has established a reputation as an authority on access hardware components by supplying an extensive range of products and constantly focusing on improvement. We stay on top of technological shifts and industry trends and are ready to support the growth of the marine market. Whether you need handles, latches, hinges, gas springs, or a custom part to complete your design, you can count on our selection of parts and knowledge to back it up.

LEVERAGING OUR ENGINEERING KNOWLEDGE

Allegis has collaborated with thousands of customers over the past 55+ years to identify and apply the best products for their applications in a wide range of markets. We understand how to combine components to find the ideal balance between function, aesthetics, and cost. We work closely with trusted hardware suppliers — relationships built over decades — to deliver more effective and cost-efficient solutions that create a better product experience for the enduser. And when the solution required is beyond our available hardware, we will custom design a system to meet a manufacturer's exact needs.

WE OFFER A WIDE RANGE OF SOLUTIONS

From the exterior to inside the cabin, Allegis offers a wide range of access solutions such as latches, hinges, drawer slides, gaskets, and more that are vibration-resistant and sealed to keep water, snow, ice, and dirt out.

MARKET PROFILE: MARINE INDUSTRY

DECK SOLUTIONS

SEATING SOLUTIONS

ENGINE & COMPARTMENT SOLUTIONS

Many of our handles are available in acid-proof 316 stainless steel for corrosion resistance. You can also enhance security with Electronic Access Solutions.

CREATING A BETTER END PRODUCT

Ready to begin your next project? For answers about multi-point latching systems and other access hardware, contact Allegis. Let our application engineers help your organization deliver solutions that will drive more value and a better product experience for the end-user.
